### COVID Update

We have been monitoring news regarding the COVID crisis in our area and are aware that various cities/towns and county health departments have declared Public Health Emergencies due to the spike in COVID-19 cases. Wisconsin, and more specifically, northeast Wisconsin, is one of the country's top hot spots for COVID outbreaks right now.

We are committed to continuing in-person instruction as long as we feel it is safe to do so. Right now, we are not planning on closing or suspending in-person classes although, as always, the COVID situation is fluid and things may change. We feel that we are taking necessary precautions to keep students and staff safe during in-person classes.

If you are ill or have been exposed to someone who is ill, please DO NOT come to school. Please reach out to the CLS office and they will provide you with further directions. Persons with COVID experience many different symptoms and a good resource to discuss your symptoms with a healthcare professional is the Theda Care Community COVID response line <https://thedacarecovid19.org/> at 920-830-6877 or 800-236-2236.

### Items Needed

Our school store is in **desperate** need of some items before our next school store day this month. Things you would find in the dollar section at your local store. Items like small trinkets, hot wheels, novelty pens/erasers, small "hand size" stuffed animals. Please bring the items to the office.

### After care pick-up

Parents picking up your child from after care, you need a key fob to gain entry. There is no one in the office after 3:30. If you need a fob, please contact Laura & she will issue one to you.

Also, to keep our building safe & secure for our students please **do not** let anyone inside the school if they do not have a fob .

### School Directory

Each student should have brought home a class roster/school directory last week. If you did not receive one, please contact Laura in the office.
