### School vs Stay Home

Below is the link on how Appleton Area School District handles illness. As you see they no longer mention Covid. There is no requirement for staff or students to test for covid if they don't feel well. If staff chooses to test themselves for Covid, then it's up to them to decide to stay home and at what point they feel ready to come

back. Common sense measures include no fever, no vomiting, no diarrhea and not too sick to work (copy & paste link below) just for reference.
